The Rails Best Practices Conference (BPC) is an event organized by Martin Fowler (and Wes Clark and several other guys, check the BPC site for a list of organizers). Martin Fowler's goal is to get people involved in the community and share ideas, so that we have a shared knowledge base to get work done. The first BPC took place in 2007 and was a huge success. (The live video feed is available from 2008-2011, and the transcript for 2007 is available for download). This year, the organizers invited a bunch of speakers who have been running best practice sessions at major conferences, and who we think should know a thing or two about software development, design, project management, or whatever. Of course, this is an extremely subjective call, so there's no guarantee that we've got it right. But we're really excited to see what they have to say! These are the scheduled speakers: Gregory Brown Head of User Experience Engineering at SAP (and co-author of Seven Habits of Highly Effective People). Greg is a fan of the BPC, and has spoken in previous years.). Greg is a fan of the BPC, and has spoken in previous years. Jeff Atwood Co-founder of Stack Overflow, creator of Coding Horror, and author of five books including Coding Horror: A Love Letter to Geeks, from the 32-year-old CEO of Stack Overflow.).
