If x is not in A, can we say it is not in any A_n? Is there a name for A? A: Let $A_n=\{n\}$, $x_n=n$, $x=0$, then we have $0 \in \bigcap_{n=1}^\infty \bigcup_{m\geq n} A_n$ since for each n there is a $m \geq n$ with $m \notin A_n$. Nicki Minaj has chosen Taylor Swift for the first round of performances at the 2013 MTV Video Music Awards on August 30. Minaj will open the show with a performance of her song, Young Money, and she will also perform her verse from Swift's We Are Never Ever Getting Back Together. It was last year that Minaj and Swift teamed up to perform Minaj's Anaconda as part of the VMA festivities. The show will also feature performances by Katy Perry, Imagine Dragons, The Weeknd, Eminem, and Foo Fighters. Minaj will also appear in a skit with Katy Perry, as well as perform a duet with Pink on the Rolling Stones classic, Sympathy For The Devil. In other VMAs news, the performance order for the show has been revealed. Swift will kick things off by performing Hello, it's Thursday in the first of two performances. Minaj
