Free Download Kontakt Library Manager 3.0 (Working I hope) with a link.. fifa 08 highly compressed 10mb free 95 Q: Change test names of test classes using gradle Is there a way to change test names of test classes using gradle. In jenkins we have done this by passing following command line gradle test -p jenkins.test-cname-name This changes all test classes names in the Test class generated by gradle. This command can also be used to change names of classes in the src folder. Please let me know if there is any way to change names of test classes using gradle. A: As far as I know there's no way to change test class names using the default gradle build. However, you can create plugins. ./gradlew createPlugin -pl test-cname-name -n TestCnameNamePlugin // test-cname-name.gradle apply plugin: "org.gradle.api.tasks.testing.TestCnameNamePlugin" task cnameName(type: com.test.CnameNamePlugin) { description = "Change the name of test classes" testClass = file("src/main/java/com/example/test/CnameNameTest.java") } Run it:./gradlew cnameName With this plugin you can do something like this: ./gradlew cnameName -p testCnameName // to be effective ./gradlew cnameName -p testCnameName -t MyTestCase // to be effective ./gradlew cnameName -p testCnameName -t MyTestCase2 This plugin is written in Java and you can find the source code here: A: If you're willing to use DSL then this should work: task cnameName ba244e880a
