TrackMania Canyon is the first title in the TrackMania series to be developed by REBEL Entertainment and is set to be the best performing racer ever released. The game features 20 beautiful levels set in some of the most iconic locations around the world, and the graphics have been created using the new Game Engine featuring the most powerful graphics and physics engine to date. TrackMania Canyon also includes the best track builder tool to date with a huge range of possibilities from the creator point of view. TrackMania Canyon also features brand new modes including the new Boss Rush, where the player has to defeat each level's boss with a limited time. Players can also customize their car and create a player profile with their own stats, allowing them to share their best times with the community. TrackMania Canyon will be released today on Steam (with a special discount) and will be available for pre-purchase with the following DRM-free versions: Steam / GOG (coming soon), Windows 10 Store, and Windows 8.1 Store.
