Life itself is a series of choices. It's a choice to be happy, a choice to be inspired, a choice to live fully. But it doesn't take a person with big hands and a low I.Q. to be happy, inspired or live fully. It just takes a willingness to choose. Crack Serial Keygen 2018.Q: Magento 2 add custom tax rules for product with different price I want to add a custom tax rule for a product with different prices and different tax percentages. I tried this: But the rule is not applied. How can I add this rule? A: There are few things we need to make sure before you go into creating any Custom Tax Rules. Your store shipping zone needs to be a shipping zone. Sales rule need to be enabled. If you wish to set tax for a particular rule first you need to set the sales rule for the tax. Also, if you wish to combine different tax rates on same product then you can not use separate sales rule for each rate. So to achieve this you have to write your own plugin with following method, public function afterExecuteRule($observer) { // Store shipping zone $store = $observer->getStore(); // Magento model $product = $observer->getProduct(); $taxRule = $product->getTaxRule(); if ($taxRule) { $store = $observer->getStore(); $app = $observer->getEvent()->getApplication(); $quote = $app->getQuote(); $quote->setShippingMethod('calculated'); $quote->collectTotals(); $quote->save(); } } 1.
