

July 10, 2018 - Just download the Cheat Engine, select the Dawn of War 2 program in the top left icon (I would recommend getting trained for CE) and then upload to .exe folder with your CE. Then click Start -> Programs -> CE and double click "Dawn of War 2 Cheat Engine". When you enter CE, you will see a box to start a new game. On the top left, what you'll see is Dawn of War 2. You can then launch the game by pressing "E" and pressing "Escape". You will see the CE menu where you can select "Use Cheats". Select Use Cheats and then Save. You will see a new window. In the top field, you select your game and then select "Save As".
