Web Forum Reader Lite allows Internet surfers to quickly scan a forum/newsgroup while reducing the amount of data that needs to be downloaded. Web Forum Reader Lite uses bookmarking technology to keep all your Internet forum/newsgroup conversations in one place. Web Forum Reader Lite will also allow you to read web forums without opening your browser. This is the fastest way to read Internet forums. You can even set an alert to be notified whenever a new topic is added. Web Forum Reader Lite will also automatically show you new topics as they are added. * Free Internet forums and newsgroups included * You can even add your own Internet forum/newsgroup resource right from the Web Forum Reader Lite application. This is ideal for folks that use web forums or newsgroups for remote assistance, product support or blogging/website support. * Use Web Forum Reader Lite even when you don't have a browser open * Web Forum Reader Lite is a standalone application that can read forums and newsgroups without having to open your web browser. This saves both time and bandwidth. Web Forum Reader Lite can even show you new topics as they are added to a forum. * Multiple forum types support * Web Forum Reader Lite supports read forums, forum search and newsgroups. You will not be limited to any one format. * Scan Forums fast * Web Forum Reader Lite displays the entire text of new posts. You can click on a category in the browse list and it will display all the posts in that category. This means you can scan for a new subcategory much faster

compared to normal scanning. * Add Internet forums * Web Forum Reader Lite also includes a wizard that you can use in order to automatically add Internet forums and newsgroups to Web Forum Reader Lite. This is ideal for using on remote support forums and websites. * No registration required * You don't have to register to read a web forum. All you need to do is load the Web Forum Reader Lite application and start reading. You can read any Internet forums or newsgroups whether they require registration or not. * Save on Data Storage * Instead of loading the entire Internet forum each time you open the application, Web Forum Reader Lite will only load the updated text for the conversations that you missed. This will reduce the amount of data that you need to download. * Share Descriptions * Web Forum Reader Lite will work on all computers running Windows XP, Vista and 7. You will not need to download and install a utility to read forums and

What's New in the?

Web Forum Reader Lite is a free Internet forum reader that will enable you to read up to 350 websites in about an hour. Web Forum Reader Lite is simple to use. You can read the site URLs just like you would any Internet browser - open them, read them, and then close them. This allows you to keep the most important topics at the top of the list. Web Forum Reader Lite uses the same cloud database that we use in our Internet browser, allowing you to get back to a site that you read in the past and simply restore it into your reading list with one click. You can also use Web Forum Reader Lite to easily add new URLs to your reading list - this can

save a lot of time since you can add sites without having to navigate to each site yourself. You can also filter the sites shown in Web Forum Reader Lite and block out the ones you don't want to see. Web Forum Reader Lite Description: Web Forum Reader Lite is a free Internet forum reader that will enable you to read up to 350 websites in about an hour. Web Forum Reader Lite is simple to use.
