## What's New In Scanmarker?

The Scanmarker allows you to change text into editable format. Scanmarker allows you to view the text on your computer screen as if it were scanned from a page. Scanmarker allows you to edit your text with any text editing application found on your computer. Scanmarker is free to download and can be used by novice and advanced computer users alike. In addition Scanmarker has the following features: Desktop The Desktop is Scanmarker's first feature. You may send your text to the Desktop for editing and view any changes before returning it to the text file on your computer. The Desktop provides two ways to activate text on your computer screen. The first of which is to copy the text from the Desktop and paste it into your text editing application. The second method is to drag the text from the Desktop and place it into the text editing application. The software is compatible with the Macintosh version of Microsoft Word. If you upgrade to Microsoft Word 97/2000/XP edition you will need to go to the help files to manually install the latest Scanmarker Compatibility Library. Transformation The Transformation feature allows you to change text into many different formats. The text is first scanned and converted into a standard text file. In the beginning the text file will look like all text files on your computer and look very weird. The text file is then opened with the Scanmarker translation software. At this point you can change the text in the text file into any text format you choose. The text format may be text, fill in, text with different text boxes, editable text, PDF, etc. Since the text file is opened in the translation program you are able to edit the text file and save it back to your computer. In addition, if you open the text file in Microsoft Word for example, you will be able to edit the text. If the file is saved in a normal text editing application for example, the text file will look normal again. The transformation feature allows you to import text into many different text formats. Changes The Changes feature allows you to view and edit your text. With Scanmarker you can change the text and save it back to your computer. You can also cut, copy and paste the text back to your computer. Scanmarker was designed for the novice computer user. The Changes feature was designed to take the burden off of the novice user who may not have a lot of programming experience. You can create your text with
